Tutorial Assignment 2

Shell Scripting -String operation

<u>Roll.</u> <u>No.</u>	<u>Gr. No.</u>	<u>Div</u>	<u>Batch</u>	<u>Name</u>
21	1201079 6	D	1	Shubham Swapneel Shah

Problems to be solved in the assignment:

1. Write shell script to find out length of given string.

```
shubham@Shubham-Shah:~/Tut2$ nano tut2_5.sh
shubham@Shubham-Shah:~/Tut2$ bash tut2_5.sh
Enter a String
ShubhamShah123
Length of String
14
shubham@Shubham-Shah:~/Tut2$
```

```
#bin/bash
echo "Enter a String "
read str2

echo "Length of String"
len=${#str2}
echo $len
```

2. Write a shell script to convert the original string into reverse string.

```
shubham@Shubham-Shah:~/Tut2$ nano tut2_3.sh
shubham@Shubham-Shah:~/Tut2$ bash tut2_3.sh
Enter the String
shubham123
Original String : shubham123
Reversed String : 321mahbuhs
shubham@Shubham-Shah:~/Tut2$
```

```
#!/bin/bash
# Reverse String

echo "Enter the String"
read str1
echo "Original String : "$str1
str2=""
temp=""
for((i=$(( ${#str1} - 1 )); i >= 0; i-- ))
do
temp=${str1:$i:1}
str2=$str2$temp
done
echo "Reversed String : "$str2
```

3. Write a shell script to find out if the given string is palindrome or not.

```
shubham@Shubham-Shah:~/Tut2$ nano tut2_4.sh
shubham@Shubham-Shah:~/Tut2$ bash tut2_4.sh
Enter the String
MADAM
Original String : MADAM
Reversed String : MADAM
MADAM Is a Paindrome String
shubham@Shubham-Shah:~/Tut2$
```

```
#!/bin/bash
# Reverse String

echo "Enter the String"
read str1
echo "Original String : "$str1
str1=${str1^^}
str2=""
temp=""
#Generate reversed String
for((i=$(( ${#str1} - 1 )); i >= 0; i-- ))
do
temp=${str1:$i:1}
str2=$str2$temp
done
echo "Reversed String : "$str2
if [ "$str1" == "$str2" ]
then
echo $str1 "Is a Paindrome String"
else
echo $str1 "Is not a Paindrome String"
fi
```
